a
SP054
SP058
SP061
SP066
SP067
SP072
train day
test day
fraction of baseline kept
b
stimulus decoder applied to another day
fraction of baseline kept
recalibrated (own z-score)
fixed (training z-score)
days apart
c
decoder weights
cosine of decoder weights
across / same day
same day, even vs odd
day a vs day b
ratio (right axis)
chance
days apart
d
direction in time
fraction of baseline kept
trained earlier, tested later
trained later, tested earlier
days apart
